Call for Papers

Special Session on Ontology Technology and Its Applications

Scope

Ontology embodies a way of knowledge representation and facilitates knowledge share and reuse. In the past decade, the concept of ontology has been widely embraced by the AI research community and has become a popular research topic. Researchers have witnessed a great deal of success in utilizing ontology to diverse domain applications. This special session aims to bring researchers who are interested in ontology and its applications together to review the current state-of-art, exchange the latest ideas and explore future directions. Topics of interest include, but are not limited to:

1. Ontology and Information Retrieval	6. Ontology and Bioinformatics
2. Ontology and Data Mining	7. Ontology and Web Services
3. Ontology and Semantic Web	8. Ontology and Smart Life
4. Ontology and e-Health	9. Ontology and e-Commerce
5. Ontology and e-Learning	10. Other Applications of Ontology

Paper Submission

All contributions should be original and not published elsewhere or intended to be published during the review period. To ensure high quality, all papers will be peer-reviewed. Electronic submission only PDF files to wylin@nuk.edu.tw or leecs@mail.nutn.edu.tw. Detail instructions for paper preparation are found in <http://scis2006.cs.dm.u-tokai.ac.jp/submission.html>.

Important Dates

Abstract Submission Due: March 30, 2006

Paper Submission Due: May 9, 2006

Author Notification: May 31, 2006

Camera-Ready Paper Due: June 30, 2006

Session Organizers

Wen-Yang Lin

Dept. of Computer Science and Information Engineering

National University of Kaohsiung, Taiwan

wylin@nuk.edu.tw

Chang-Shing Lee

Dept. of Computer Science and Information Engineering

National University of Tainan, Taiwan

leecs@mail.nutn.edu.tw
